

SA EARTH
OBSERVATION
CHALLENGE

YOU ARE INVITED

10:30am | 7 DECEMBER 2018

The Wanderers club, 21 North Street, Johannesburg

A PRESTIGIOUS INVESTOR - ENTREPRENEUR MATCHMAKING EVENT

Be one of the first to experience the latest
innovations in Earth Observation Data

Throughout 2018, the South African National Space Agency ran an open innovation challenge searching for novel applications using earth observation data, focusing on food and water security, safety and urban planning.

From this challenge, twelve finalists have been selected for the final round, where they are able to pitch their solutions to all partnering companies, as well as potential investors.

We invite you to come and discover these novel technologies with us.

Please RSVP to media@saeochallenge.com by 30 November 2018
