Should any of the fronting indicators as contained in the Guidelines on Complex Structures and Transactions and Fronting, issued by the Department of Trade and Industry, be established during such enquiry / investigation, the onus will be on the Bidder / contractor to prove that fronting does not exist. Failure to do so within a period of 14 days from date of notification may invalidate the bid / contract and may also result in the restriction of the Bidder /contractor to conduct business with the public sector for a period not exceeding ten years, in addition to any other remedies the CSIR may have against the Bidder / contractor concerned.

No tender shall be awarded to a bidder who is not tax compliant. The CSIR reserves the right to withdraw an award made, or cancel a contract concluded with a successful bidder in the event that it is established that such bidder was in fact not tax compliant at the time of the award, or has submitted a fraudulent Tax Clearance Certificate to The CSIR, or whose verification against the Central Supplier Database (CSD) proves non-compliant. The CSIR further reserves the right to cancel a contract with a successful bidder in the event that such bidder does not remain tax compliant for the full term of the contract.

Throughout this bid process and thereafter, bidder(s) must secure the CSIR's written approval prior to the release of any information that pertains to (i) the potential work or activities to which this bid relates; or (ii) the process which follows this bid. Failure to adhere to this requirement may result in disqualification from the bid process and civil action.

24 AVAILABILITY OF FUNDS

Should funds no longer be available to pay for the execution of the responsibilities of this bid, the CSIR may terminate the Agreement at its own discretion or temporarily suspend all or part of the services by notice to the successful bidder who shall immediately make arrangements to stop the performance of the services and minimize further expenditure: Provided that the successful bidder shall thereupon be entitled to payment in full for the services delivered, up to the date of cancellation or suspension.

3 PROPOSAL SPECIFICATION

3.1 Background and Scope of Work

South Africa's biomanufacturing sector is small in comparison to the global industry, and there remains significant unrealised potential for local companies, especially those entities which can supply domestic markets by adding value to indigenous raw materials. According to the National Bioeconomy Strategy (Department of Science and Technology 2013), local bio-entrepreneurs face several constraints to their innovation efforts including the lack of access to world-class biomanufacturing infrastructure and skills.

Therefore, the Department of Science and Technology (DST) Bioeconomy Strategy identified the 'strengthening of bioprocessing capacity' as a key programme to stimulate the biotechnology sector. Similarly, **the dtic** Industrial Policy Action Plan (IPAP 2018/19 – 2020/21) Strategy, plans to reduce the trade deficit through supporting local manufacturing in areas such as pharmaceuticals and agroprocessing.

The Biomanufacturing Industry Development Centre (BIDC) platform was established in 2013 with support from the Jobs Fund (Enterprise Development Fund) and the Department of Science, Technology and Innovation (DSTI), the then DST. The platform aimed at lowering costs and risk barriers that inhibit innovative, private, and non-private sector-led enterprise models, partnerships, ideas, and projects that directly enhance sustainable job creation. The DSTI, through the Industry Innovation Partnership Fund, has co-funded the programme since inception and continues to do so. The BIDC has supported 40 SMMEs and trained over 200 interns to date. The DSTI requires a study of the impact the BIDC initiative has brought about to the South African bioeconomy.

3.2 Study objectives

Seek to understand the effect the BIDC initiative has had on:

- Enterprise success and growth, including market entry, investment leveraged, business growth, employment by the SMMEs/ enterprises and absorption of trained interns by industry.

3.3 Study scope

- Period under review: 1 September 2013- 30 June 2025
- An impact study project duration of no more than four months and completed by 30 January 2026
- The evaluation will focus on the Biomanufacturing Industry Development Center (BIDC) and the technical support provided to enterprises for product development, pilot scale, licensing and commercialisation.
- Note limitations of the study: time lag between activities and impacts, attribution of causality from the activities undertaken (can look at **direct** impact, but beyond that is beyond this study due to multi factors addressing things like socio economic growth etc)
- Inclusions:
 - Companies/enterprises supported under the BIDC programme and where technology transfer occurred
 - Interns that participated in the internship programme
- The following variables should be evaluated in order to assess especially economic impact;

List/types of products developed; Any IP filed; Number of jobs created as a result of participating in the program, any investment made by company, any possible funding acquired by the enterprise, any sales made, any exports, any company growth.
- The impact of training programmes of the BIDC on individuals' employability through:
 - Internships
 - Courses in Biomanufacturing/Bioprocessing
- The prospective service provider should provide an understanding of how programme impacts are differentiated across all the sectors (Food and Beverage, Agribiologicals, speciality chemicals, bio-based chemicals, biological reagents and diagnostics) in which the programme components are implemented.
- Geographical coverage: The coverage of the evaluation will be national (in accordance with BIDC mandate) and will include an analysis of key documents and a nationally representative sample of the SMMEs that were/are being supported or under incubation (in scope), disaggregated by province and sectors, gender and race. To this end, a total of 40 SMMEs (supported) are to be scoped in which a representative sample of at least 40% will be selected.
- T

Additional Requirements:

- Bidders must submit responsive proposals in accordance with the RFP requirements and the evaluation criteria.

- CV of key personnel involved.
- List of company projects involving similar work.
- Reference letters from previous clients
- A proposal outlining the milestones, activities, deliverables and timelines.
